ABOUT US

## **CONSULTANCY**

Advisory, Engineering, Environmental Reporting, Management, Planning and Project Management Consultancy Services, Process Safety, Resource Consenting, Surveying and Mapping.

## **ENGINEERING DESIGN**

Engineering Design, Industrial Automation, Planning, Procurement and Project Management.

## **LOGISTICS**

Berthage, Cargo Project Forwarding Services, Heavy Haulage and Line Wire Trucking, Helicopter, Lifting Services, Offshore Boats and Support Vessels and Storage.

## **SUPPLY / PRODUCTS**

Building, Electrical Cabling Supplies, Instrumentation Repair and Diagnostics, Insulation, Servicing, Valves and more.

## **TECHNICAL SERVICES**

Automation, Digital Imaging, Gas Detection, Inspection, Testing and Certification services, Lift Engineering and much more.

## **TRAINING / MANPOWER**

Training Courses in BOSIET and HAZOP, Fire, First Aid, Health and Safety, Manning and Consultancy Services, Personnel and Well Control.

# **OGST CAPABILITIES**

## **BECA AMEC**

Beca AMEC is one of the largest employee-owned engineering and related consultancy services companies in the Asia-Pacific, with core skills in technical, engineering and asset management support services.

## **BTW COMPANY**

BTW Company has developed a professional and innovative team of surveyors, planners, engineers, land and GIS specialists with broad experience on projects both in NZ and overseas.

## **FITZROY ENGINEERING GROUP LTD**

A long standing Taranaki based contractor to the oil & gas, energy, petrochemical and mineral industries, offering solutions based on a reputation for quality workmanship and technical expertise.

## **GOUGH POWER SYSTEMS**

“World leading power systems solutions” Gough Power Systems is the authorised Caterpillar distributor for New Zealand. Our core business strategy includes the supply of leading edge power solutions to New Zealand’s oil and gas industries.

# **CONSULTANCY**

os

## **ITL (INDEPENDENT TECHNOLOGY LTD)**

ITL is a technically orientated company that provides project management, design, procurement, construction and commissioning services for the oil, gas, petrochemical, manufacturing and processing industries.

## **MARSHALL DAY ACOUSTICS**

An acoustic consultancy that employs over 70 specialist staff, Marshall Day Acoustics has wide ranging experience over many years of the assessment, measurement and development of engineering and planning control measures for industrial emissions.

## **OSD PIPELINES**

OSD was established in 1998 by pipeline engineer Brian O'Sullivan. Starting from a small office in Brisbane, OSD has expanded operations geographically and vertically within the pipeline sector to become a dedicated pipeline services provider.

## **SAFETY SOLUTIONS**

Safety Solutions is a consulting and training company that specialises in process safety. We work with our clients to reduce the likelihood of unnecessary and catastrophic accidents and have a number of subject matter experts across the process safety field.

# CONSULTANCY

## **BECA AMEC**

Beca AMEC is one of the largest employee-owned engineering and related consultancy services companies in the Asia-Pacific, with core skills in technical, engineering and asset management support services.

## **BTW COMPANY**

BTW Company has developed a professional and innovative team of surveyors, planners, engineers, land and GIS specialists with broad experience on projects both in NZ and overseas.

## **ENGINEERING CONTROL LTD**

Engineering Control LTD (ECL) is a dynamic company focusing on the industrial automation requirements of the petrochemical industry.

## **ITL (INDEPENDENT TECHNOLOGY LTD)**

ITL is a technically orientated company that provides project management, design, procurement, construction and commissioning services for the oil, gas, petrochemical, manufacturing and processing industries.

# **ENGINEERING DESIGN**

## **MARSHALL DAY ACOUSTICS**

An acoustic consultancy that employs over 70 specialist staff, Marshall Day Acoustics has wide ranging experience over many years of the assessment, measurement and development of engineering and planning control measures for industrial emissions.

## **MB CENTURY**

MB Century is one of the largest and most experienced energy services contractors in the Asia Pacific region, and employs over 500 people company wide, providing award winning services to the oil, gas, geothermal, hydro and renewable energy sectors.

## **OSD PIPELINES**

OSD was established in 1998 by pipeline engineer Brian O'Sullivan. Starting from a small office in Brisbane, OSD has expanded operations geographically and vertically within the pipeline sector to become a dedicated pipeline services provider.

## **QUEST INTEGRITY GROUP**

Specialists in remote digital video inspections, a unique marriage of equipment, systems and highly trained personnel are used to access and provide valuable data on equipment condition and the operating efficiency of many processes.

# **ENGINEERING DESIGN**

os

## **DEUGRO**

deugro (New Zealand) provide international freight forwarding services to a wide range of clientele involved in various industrial sectors such as oil & gas, wind farms, mining and metals, plant relocation, infrastructure and power generation.

## **HOOKER PACIFIC**

Hooker Pacific employs over 900 people and operates over 800 vehicles nationwide. We operate the most technically advanced, economical and modern equipment available to our industry.

## **OFFSHORE SOLUTIONS**

Offshore Solutions is a joint venture between three New Zealand companies, Seaworks Limited, Swire Pacific Offshore NZ Limited and ETL Group Limited and offers a full range of logistical support services to on and offshore drilling programmes.

## **PORT TARANAKI**

As the site of New Zealand's first oil well in the 1860s, Port Taranaki has always played a key role in the development of Taranaki's oil and gas resources and is home to the only deepwater port on New Zealand's west coast.

## **PRECISION HELICOPTERS LTD**

With over 20 years aviation industry experience, you can trust PHL to deliver safe, reliable and professional helicopter services, when and wherever required.

# LOGISTICS

## **EHL GROUP**

EHL's oil and gas division specialises in custom built hydro test packs, gas boosters, chemical injection skids along with a wide range of instrumentation, high pressure, process control, filtration, hose & fittings suitable for offshore/onshore environments.

## **ENTEC SERVICES LTD**

Entec provides equipment and specialist service in a broad range of mechanical, instrumentation and electrical disciplines within the oil and gas industries.

## **FITZROY ENGINEERING GROUP LTD**

A long standing Taranaki based contractor to the oil & gas, energy, petrochemical and mineral industries, offering solutions based on a reputation for quality workmanship and technical expertise.

## **GOUGH POWER SYSTEMS**

"World leading power systems solutions" Gough Power Systems is the authorised Caterpillar distributor for New Zealand. Our core business strategy includes the supply of leading edge power solutions to New Zealand's oil and gas industries.

## **INTERGROUP**

Intergroup is New Zealand's largest and leading environmental service provider. It specialises in providing facilities maintenance services, industrial cleaning and total waste management solutions to customers in a range of industry sectors.

# **SUPPLY/PRODUCTS**

## **IPL**

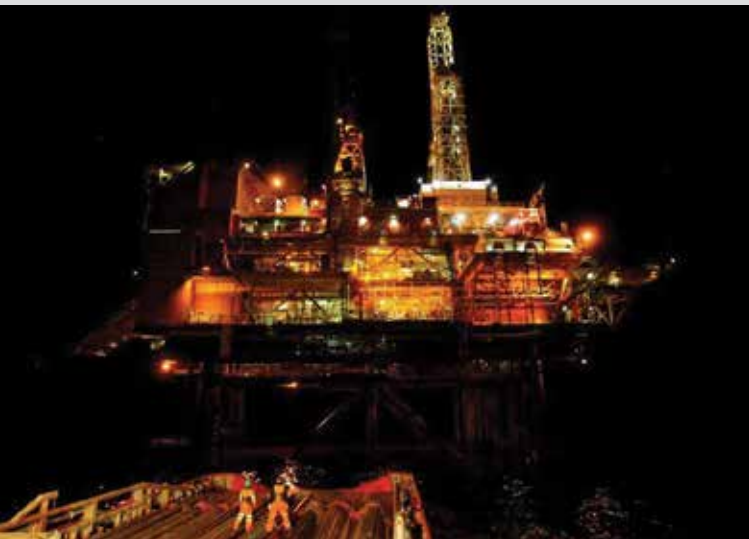

IPL are hydrocarbon and environmental analysis experts and are constantly developing new capabilities aimed at better serving the oil & gas industry.

## **MRC**

MRC Transmark is a specialist stockist-distributor and manufacturer of valves, actuation packages, instrumentation products and industrial insulation products.

## **NEXANS OLEX NZ LTD**

Nexans Olex New Zealand Limited has been servicing the domestic and international cable markets from its Taranaki site since 1967, manufacturing electrical power cables ranging from low voltage products, 35 kV and special designs.
